My Portfolio | Linkedin

With over 2 years of expertise, I excel in merging creativity with technology in Front-End/Blockchain Development. Proficient in web3.js for Ethereum, UI design, and 2D/3D game development using Phaser and Unity. Hands-on, passionate, and versatile with a TOEIC score of 720.

SKILLS

Languages: Vietnam, English.
Programming Languages: TypeScript, JavaScript, Solidity, HTML5, SASS/SCSS
Frameworks/Libraries: React, Vue, Phaser, Three.js, Model Viewer
UI Libraries: Material UI, Vuetify, Tailwind CSS
Certifications & Training: TOEIC 720.

EDUCATION

Ton Duc Thang University   Ho Chi Minh, Vietnam
Software Engineering   Graduation Date: August 2022

Relevant Coursework: Software Development, Computer Programming, Data Structures and Algorithms, Software Testing and Quality Assurance, Database Management Systems.

WORK EXPERIENCE

UnionTek   Ho Chi Minh, Vietnam
Intern Frontend Web Developer   Jul 2022 – Mar 2023
- Collaborated with back-end and UX/UI design teams to enhance website and application functionalities. Integrated RESTful APIs for efficient data handling. Designed and implemented a complex animation landing page for a Blockchain project.
- **Skilled: JavaScript, React.js, Solidity, Three.js, Smart Contract,..**
- **Selected Project Experience:**
  - Led integration of RESTful APIs, improving data handling efficiency.
  - Designed and implemented a complex animation landing page, enhancing project visibility.
  - Contributed to frontend component development, advancing project capabilities.

TotallyAwesome   Ho Chi Minh, Vietnam
Interactive Frontend Developer   Mar 2023 – Apr 2024
- Developed APAC market-targeted minigames and rich media ads, enhancing user engagement and brand visibility. Collaborated with the back-end team to create internal tools, streamlining workflow processes. Actively participated in Agile development methodologies, contributing to sprint planning, daily stand-ups, and sprint reviews.
- **Skilled: Vue, TypeScript, PhaserJs, SCRUM, Git,..**
- **Selected Project Experience:**

o   Developed APAC market-targeted minigames and rich media ads, driving user engagement and brand recognition.
o   Collaborated on internal tool creation, improving team efficiency and productivity.
o   Actively participated in Agile development processes, contributing to project success and team cohesion.

PROJECTS

Portfolio *(all projects)*
- **Demo link :** View demo
- **Role**: Full Stack Developer
- **Description**: Developed a portfolio to show about my information and showcase all my project.
- **Technologies**: Javascript, SCSS, HTML.
- **Achievements**: Created an intuitive and visually appealing interface to effectively showcase projects and skills. Implemented responsive design principles to ensure compatibility across various devices and screen sizes. Optimized website performance through efficient code structure and asset optimization techniques. Incorporated interactive elements and animations to enhance user engagement and interactivity.

Crypto Tuition Pay
- **Demo link :** View demo video
- **Role:** Full Stack Developer
- **Team Size:** 1 member
- **Description:** CryptoTuitionPay streamlines tuition fee payments via cryptocurrencies, ensuring transparency and security through blockchain technology. It offers real-time tracking and immutable transaction records for students and institutions.
- **Technologies:**
  - **Frontend:** ReactTs, Material UI, TailwindCSS
  - **Smart Contract:** Solidity
  - **Backend:** NodeJs, Express.Js
  - **Database:** MySQL
- **Achievements:** Successfully implemented end-to-end payment processing, enhancing financial transparency and security. Integrated blockchain technology, ensuring tamper-proof transaction records and fostering trust among stakeholders. Optimized frontend performance and user experience, resulting in increased user engagement and satisfaction.
